

MORE THAN
600,000

Missourians live with ambulatory difficulties or a developmental disability.

60%

of Missourians with a mobility limitation or cognitive disability rate their health as “fair” or “poor.”

MODHP and its partners offer **FREE CEUs** for healthcare professionals on disability-competent care.

MODHP
Missouri Disability and Health Program

Enhance your ability to provide disability-competent care through these Responsive Practice Trainings.

Learn how to recognize **health disparities** and possible **barriers** to health care access faced by people with disabilities through **Module 1: Providing Health Care & Screenings to Individuals with Disabilities.**

Be able to identify and utilize **alternative methods of communication** for patients with disabilities that encourage them to participate in their own care through **Module 2: Accessible & Adaptive Communication.**

These trainings are created by the NH Disability and Health Program and provided by the UMKC Institute for Human Development. These trainings are funded by a cooperative agreement between the Centers for Disease Control and Prevention (CDC), the United States Health and Human Services and the Missouri Disability and Health State Program (DD16-1603; DD21-2103)
